

An abstract graphic composed of numerous thin, purple lines that form a complex, wavy, grid-like structure. The lines are arranged in a way that creates a sense of depth and movement, resembling a wireframe model of a curved surface or a stylized, futuristic landscape. The lines are most densely packed in the center and become more sparse towards the edges, creating a gradient effect.

Our Services

How Enterprise Print Services Can Help Your Business

Managed Workplace Services Are Beneficial For Businesses

We help organisations by providing a range of services to help them achieve digital transformation goals. Aurora have got you covered with our secure, simple, practical, sustainable and flexible workplace solutions.

Our approach provides clients with unique solutions tailored to their workplaces. We have services for print management and documentation, IT, security and protection, telecoms and much more! Transform your digital space with Aurora.

So, What Can Aurora Do To Help Your Business?

 Solutions	
Corporate Managed Print Services That Work	
<p>When it comes to managing print environments in an organisation, there isn't a one-size-fits-all solution. We want to optimise the performance of businesses with our monitoring and servicing solutions - taking document workflow to the next level.</p>	

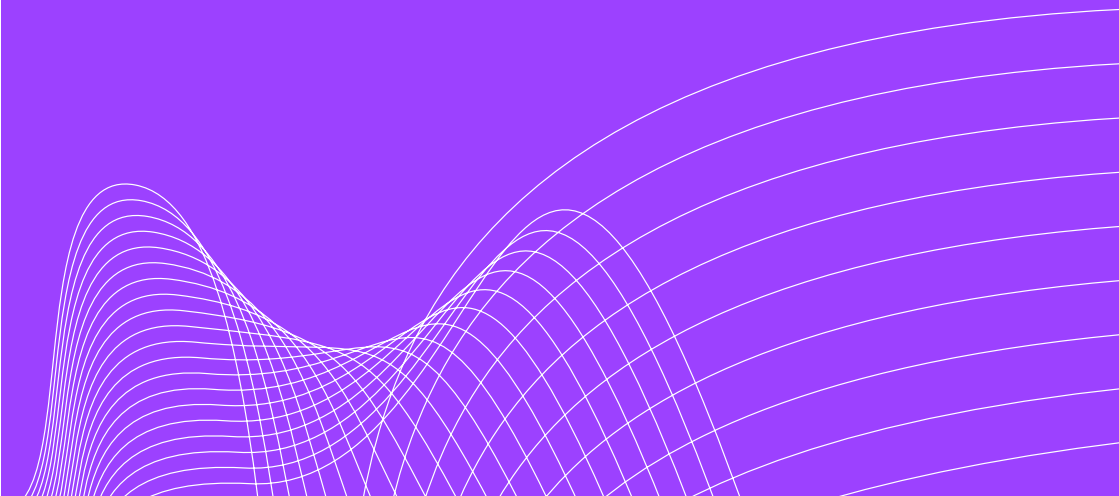

Scan & Document Workflows

Digitise your office environment by optimising document scanning processes to create highly efficient, cost-effective and auditable workflows. Our solutions automatically recognise and classify documents and capture important data - turning paper documents into electronic versions at the touch of a button! Eliminate tasks to improve employee productivity with scan & document workflow solutions.

Document Management

Get the most out of print technology with automated workflows, maximising your operational and financial efficiency. Aurora help with managing documents, electronically delivering a range of benefits to any organisation; including efficient processes, reduced paper waste, enhance security and access to internal documents from any location!

Aurora Remote Management Application

ARMA (Aurora Remote Management Application) provides businesses with a comprehensive support platform, utilising market-leading software to ensure we deliver advanced MPS to enable organisations to achieve greater uptime across all print devices!

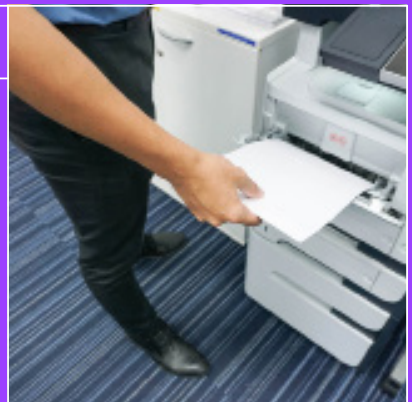

Cloud Printing

Cloud services are accelerating - and we know how important these are to businesses. Organisations can manage and print documents securely and efficiently, no matter where they are, with cloud print MPS. We can provide printing infrastructures with the latest tech to keep workplaces connected.

Print Production

In a demanding Production Print environment, Aurora provide support for businesses. Optimise business goals by investing in a tailored Production Print plan; streamlining workflows and ensuring maximum output, quality and productivity.
